

The CRES AMATEUR RADIO CLUB

WANTS YOU!

(to consider joining our club)

The CRES-ARC was established in 1962 as a company sponsored ham radio club for employees of Western Electric and Bell Laboratories at their Columbus, Ohio, facility. Today, CRES-ARC membership is open to all licensed amateurs. We maintain the W8ZPF club repeater (146.07/.67 MHz w/131.8 Hz CTCSS needed for access). W8ZPF/R is located near I-270 on East Broad Street on the far east side of Columbus, with a remote receiver site in northwest Fairfield County, and is available for the use of all licensed amateurs.

The stated **purpose** of the CRES-ARC is to:

- Stimulate interest in the various facets of amateur radio
- Foster the exchange of technical knowledge among Club members
- Maintain a Club repeater for the benefit of Club members and local amateurs
- Supply the infrastructure and technical acumen to provide local communications in times of emergency
- Hold activities that afford Club members and their families the opportunity to gather together and socialize

The CRES-ARC sponsors a variety of **activities** covering a wide range of amateur interests (see website for details):

- **Meetings:** Monthly meetings featuring informational and technical talks by members and outside speakers, and arranged visits to local sites of interest and hamfests
- **Nets:** A weekly Sunday evening roundtable on the 146.67 repeater
- **Service:** A VE license exam team; ARRL-affiliation
- **Technical:** A repeater committee and other special interest groups
- **Contesting:** ARRL Field Day in June, CQ-WE (Western Electric) contest in November
- **Social:** Annual picnic and holiday get-togethers for members and their families
